SECTION 4. FIRST AID MEASURES

Inhalation: Remove from exposure immediately. Use a bag valve mask or similar device to perform artificial respiration if needed. Get medical attention.

Skin Contact: Remove contaminated clothing, jewelry and shoes immediately. Wash with soap or mild detergent and large amounts of water until no evidence of chemicals remains (at least 15-20 minutes). Get medical attention immediately.

Eye Contact: Wash eyes immediately with large amounts of water (or normal saline), occasionally lifting upper and lower lids, until no evidence of chemical remains. Get medical attention immediately.

Ingestion: If vomiting occurs, keep head lower than hips to help prevent aspiration. Get medical attention immediately.

SECTION 5. FIRE FIGHTING MEASURES

Fire and Explosion Hazards: Slight fire hazard. Dust/air mixtures may ignite or explode (although exact conditions are unknown).

Extinguishing Media: Carbon dioxide, regular dry chemical, regular foam, water.

Fire Fighting: Move container from fire area if it can be done without risk. Do not scatter spilled material with high pressure water streams. Dike for later disposal. Use extinguishing agents appropriate for surrounding fire. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas.

Flash Point: N/A
Flammability Class (OSHA): N/A

SECTION 6. ACCIDENTAL RELEASE MEASURES

Occupational Release:

Collect spilled material in appropriate container for disposal. Keep out of water supplies and sewers. Keep unnecessary people away, isolate hazard area and deny entry.

SECTION 7. HANDLING STORAGE

Store and handle in accordance with all current regulations and standards. Store in a cool, dry place (between 20C and 25oC). Keep separated from incompatible substances.

SECTION 8. EXPOSURE CONTROLS, PERSONAL PROTECTION

Exposure limits

No occupational exposure limits established.

Ventilation: Provide local exhaust or process enclosure ventilation system. Ventilation equipment should be explosion-resistant if explosive concentrations of material are present. Ensure compliance with applicable exposure limits.

Eye Protection: Wear splash resistant safety goggles with a face shield. Provide an emergency eye wash fountain and quick drench shower in the immediate work area.

Clothing: Wear appropriate chemical resistant clothing.

Gloves: Wear appropriate chemical resistant gloves.

Respirator: Under conditions of frequent use or heavy exposure, respiratory protection may be needed. Respiratory protection is ranked in order from minimum to maximum. Consider warning properties before use.

Any supplied-air respirator with a full face piece that is operated in a pressure-demand or other positive-pressure mode.

Any self-contained breathing apparatus that has a full face piece and is operated in a pressure-demand or other positive-pressure mode.

For Unknown Concentrations of Immediately Dangerous to Life of Health-

Any supplied-air respirator with full face piece and operated in a pressure-demand or other positive-pressure mode in combination with a separate escape supply. Any self-contained breathing apparatus with a full face piece.
